YOUR DONATION

The Blind River District Health Centre Foundation raises funds to ensure that the Blind River District Health Centre can fulfill its vision and continue to expand services, develop new programs, and bring leading-edge technology and treatment to the people of our North Shore communities. Through generous support of donors, the Foundation helps guarantee that appropriate health care will always be within reach.

YOUR PREFERENCE

The donations you make can be left undesignated for equipment purchases throughout the Health Centre. You can also decide to donate to a particular program, for example Golden Birches Terrace.

You decide where your contribution will be used.

Many people donate to departments which have helped them or a loved one or to the area they work in at the Health Centre.
